

Erasmus+

Science communicator and educator

It is a professional that communicate **science-related topics** to **non-experts**, in a clear and engaging way for people. Its aim is to **raise citizen awareness** towards **scientific topics**, because they are deeply related to the everyday life, as health, energy, food.

An other important objective it has is **trustworthy communicate** how **scientific knowledge is builded**, in order to promote the confidence towards science and technology.

The science communicator can do its job in **many different** ways, depending on the **contexts** and the **media**.

Erasmus+

Science communicator and educator

It is possible to collaborate with **schools**, **protected areas**, **museums** or other public stakeholder.

The science communicator can also spread scientific contents by **writing books** or writing on **magazines** and on the **web**.

Other possible ways are recording podcast and videos, collaborating with **mass media** but also projecting and leading workshops for private or public **events** like festivals, expositions and so on.

During the project we met communicators/educators that work in the area of the [Sesia Val Grande Geopark](#)
